

ANDREI VICTOR BALABBO

Full Stack Developer

Calamagui, San Pablo, Isabela, Philippines · andrei.balabbo@email.com · drei-port.vercel.app · github.com/Dreisky

PROFESSIONAL SUMMARY

BS Information Technology graduate and award-winning web developer with hands-on experience building full-stack applications using React, Laravel, and TypeScript. Two-time ICT UniWide Champion (Static Web 2025, Dynamic Web 2026). Passionate about crafting clean, performant UIs and scalable backend architectures.

PROJECTS

Personal Portfolio Website

Present

drei-port.vercel.app · React · Vite · Tailwind CSS · Framer Motion · GSAP · shadcn/ui

- Built a fully animated developer portfolio with GSAP preloader, Framer Motion scroll/entrance animations, and custom anchor navigation via React Router.
- Integrated Magic UI's GridPattern background, 21st.dev's ImageReveal component with responsive mobile offset logic, and a Marquee-based skills display.
- Implemented dark/light mode using next-themes with an animated Magic UI theme toggler and Tabler Icons for consistent iconography.

TESDA Region 2 Digital Certification System

2026

Laravel · Tailwind CSS · MySQL · Git

- Built an internal certificate management system for TESDA Region 2 employees, enabling admins to issue digital certificates directly from the platform.
- Implemented an approval workflow where issued certificates are routed to the Regional Director for confirmation before becoming accessible to recipients.
- Once approved, employees can log into their accounts and view their certificate with the Regional Director's digital signature applied.
- Connected to TESDA's existing database alongside the app's own database to pull live employee records without duplicating data.

EDUCATION

Bachelor of Science in Information Technology

2026

Cagayan State University · Carig Sur, Tuguegarao City, Cagayan, Philippines

Relevant coursework: Web Development, Database Management, Systems Analysis & Design

AWARDS & COMPETITIONS

- **1st Place — Dynamic Web Development** — ICT UniWide Competition, 2026
- **1st Place — Static Web Development** — ICT UniWide Competition, 2025
- **2nd Place — Web Development** — ICT Roadshow, 2025
- **Participant — Hack4Gov Hackathon (Regional)** — Capture the Flag Competition, 2024, 2025

TECHNICAL SKILLS

Frontend: React, TypeScript, Vite, Tailwind CSS, shadcn/ui, HTML5, CSS3

Backend: Laravel (PHP), Inertia.js, RESTful APIs, Role-based Access Control

Databases: MySQL, Eloquent ORM, multi-database connections, migrations & seeders

Tools & Platforms: Git, GitHub, VS Code, Vercel, Ubuntu, npm, Composer

UI Libraries: Magic UI, 21st.dev, Tabler Icons, Devicon
